➤ What is Paper Sumo?

We have developed a virtual game like paper *sumo*, a Japanese traditional game using paper figures. This game is played by 2 players and each player has a paper wrestler. The player taps on his/her own-side of the *sumo* ring board and lets his/her own figure rush and fight with its opponent. Virtual paper *sumo* simulates the game employing the ForcePad!

➤ The game

1. Each player selects a favorite figure character and can play on various stages.

Various Stages

2. Let's fight!

Paper Sumo Game

Virtual

Wrestler

Strength of finger actions

ForcePad

- ◆ The winning condition of paper *sumo* are either of:
 - pushing the opponent's figure out of the ring.
 - bellowing down an opponent's figure.
- ◆ ForcePad detects the place and strength of finger actions. The player moves his/her own figure by tapping and swiping. In addition to the rules of original paper *sumo*, the following gesture operations are incorporated:
 - **Tsuppari** : an offence action to push strongly.
 - **Harai** : a defense action to avoid a *Tsuppari*.
